

GlamPure

The Organic Wallcovering

1. Description

GlamPure is the organic nonwoven fabric made with plant-based raw materials, and is both environmentally-friendly and compostable. A fibrous material with a low thermal conductivity index attesting to its insulating and thermoregulating qualities.

2. Uses

Thanks to its characteristics, GlamPure is the ideal solution for applications in residential and hospitality bio-architecture contexts: in fact, it has moisture absorption properties and insulating, thermoregulating, resistance and hypoallergenic characteristics.

3. Surface preparation

To apply a wallcovering correctly it is essential that you refer to the *Installation Manual*. This can be found inside the box and can also be downloaded from glamora.it from the page entitled Materials. Should you require further details, please contact our Customer Care Service.

Before starting, please make sure that the surface where you will be applying GlamPure is perfectly smooth, flat and white. This surface must be completely dry, have a residual humidity level of less than 2.0%, and must be free of any signs of dirt, pencil marks, dust, grit and damp spots. Make sure that there are no drafts in the space where the wallcovering will be applied and that the temperature remains between 15°C and 35°C with no fluctuations.

In the presence of a newly-applied top layer of plaster.

Make sure that the base is solid and dry and that there is no mould or rising damp. Apply an extra-fine, white-coloured, smooth skim finish to the entire surface using a suitable cement-based skim coat. To even out absorption and improve adhesion, apply one or two coats of acrylic primer in an aqueous dispersion suitably diluted as recommended by the manufacturer. Wait until this is dry before proceeding to apply GlamPure.

In the presence of existing plasterwork or a slightly uneven base.

Sand and remove any material that is coming off as well as any salty deposits and old peeling paint. Carefully clean the base using suitable equipment and make sure it is completely dry, even and flat. Apply an extra-fine, white-coloured, smooth skim finish to the entire surface using a suitable cement-based skim coat. To even out absorption and improve adhesion, apply one or two coats of acrylic primer in an aqueous dispersion suitably diluted as recommended by the manufacturer. Wait until this is dry before proceeding to apply GlamPure.

In the presence of a ceramic wall covering or tiles.

Carefully clean the surface using suitable equipment for ceramic or tiles and remove any traces of limescale. Make sure that the wall is completely dry. Apply a thin, light-coloured, smooth skim finish using a suitable (preferably cement-based) skim coat. Once this is dry, apply a second extra-fine, white-coloured, smooth skim finish using a suitable cement-based skim coat. To even out absorption and improve adhesion, apply one or two coats of acrylic primer in an aqueous dispersion suitably diluted as recommended by the manufacturer. Wait until this is dry before proceeding to apply GlamPure.

4. Technical characteristics

DIMENSIONS:

Thickness	0,62 mm 0.024 in
Roll width	51 cm 20.07 in
Roll length	custom
Weight	130 (+/- 20) g/m ² 0.43 (+/- 0.6) oz/sq ft

Appearance	Fibrous
Composition	Linen 65%, Viscose 35%
CE – EN 15102:2007+A1:2011	Decorative wallcoverings – roll and panel form
Reaction to fire (UNI EN 13501-1)	Euro class: B-s1, d0
Thermal conductivity coefficient	0,24 λ (W / (mK))
Tensile strength (MD)	> 150 N/5cm
Tensile strength (CD)	> 120 N/5cm
VOCs	Absent (EN 15102). The material does not release volatile substances that can produce indoor air pollution
Chemical safety certification Equivalent to: – Annex XVII of REACH – CPSIA – Chinese standard GB 18401:2010	OEKO-TEX® – Standard 100

5. Cleaning and care

Before cleaning your wallcovering, it is recommended that you read the manual *Care and Maintenance Advice*, which can be downloaded from the *Materials* page of glamora.it. Should you require further details, please contact our Customer Care Service.

GlamPure is a non-washable wallcovering and marks should therefore be avoided completely. Due to its natural fibres, it must be handled with the utmost care. If it does get marked, use an absorbent white cloth to dab the wallcovering and immediately remove the stain before it sinks in and dries.

Glamora is not responsible for any damage caused during cleaning.

6. Warnings

- Product for professional use
- Comply with national standards and regulations
- Check that the application surface is perfectly clean, dry and flat
- In case of need, request the safety data sheet
- For any information not provided herein, please contact Glamora Customer Service on +39 0536 076 403 or write to contact@glamora.it

The application of Glamora wallcoverings to surfaces other than those specifically indicated in the manuals or in the company's official installation videos (for example wood, laminate, metal, resin or similar materials) or for uses other than that for which the wallcovering was designed (for example installation on the floor, doors, panels, outdoors or in similar environments) does not comply with the manufacturer's instructions. Therefore, in such cases, any warranty issued to the purchaser will be null and void and Glamora Srl will accept no contractual or extra-contractual liability for the same, nor shall it be answerable for any product defects and/or differences in performance detected as a result. In such cases, the product will be considered as having been sold at the risk and peril of the buyer and Glamora Srl will be under no obligation, nor will it be responsible for upholding any warranty.

Without prejudice to the above, and subject to you sharing the relative technical characteristics, Glamora Srl may provide suggestions regarding the treatment of your installation surfaces, but only as a form of mere courtesy and without accepting any liability, upon your request. In the event of you requesting suggestions and/or subsequently passing a purchase order, it will be considered that the parties are aware of the conditions stated above and that you have specifically acknowledged and accepted these.
