

Vespera Collection

GLAMORA

GlamPlissé è un rivestimento murale tessile in puro lino. La plissettatura verticale irregolare introduce una tridimensionalità discreta; la superficie, dall'autentico sapore artigianale, suggerisce i soggetti in un delicato effetto di dissolvenza, lasciando alla luce il compito di rivelarne la trama.

GlamPlissé is a pure linen textile wallcovering. Its irregular vertical pleating introduces a subtle three-dimensional texture, while the surface, with its artisanal character, suggests the motifs through a subtle veil effect, allowing light to reveal the weave.

Special Editions

IT Espressioni emblematiche del linguaggio Glamora, le Special Editions sono collezioni tematiche, ciascuna sviluppata attorno a un tema progettuale preciso che esplora un particolare linguaggio estetico e materico. Nascono da materiali esclusivi provenienti da tutto il mondo – lino europeo, rafia africana, sughero, quarzo – scelti per la loro spiccata sensorialità e affinità con la visione stilistica del brand. Da questi materiali prendono forma superfici vive, in cui leggere irregolarità e imperfezioni si rivelano segni distintivi, espressione autentica della materia, definendo una bellezza non uniforme che amplifica l'interazione con la luce.

EN Emblematic expressions of Glamora's design language, Special Editions are thematic collections, each developed around a precise design concept that explores a distinct aesthetic and material language. They are inspired by exclusive materials sourced from around the World – European linen, African raffia, cork, and quartz – selected for their strong sensory appeal and their harmony with the brand's stylistic vision. From these materials emerge living surfaces, where subtle irregularities and imperfections reveal themselves as distinctive features and an authentic expression of the material, defining a non-uniform beauty that enhances the interaction with light.

Vespera Collection

IT Vespera Collection nasce con l'intento di portare negli spazi contemporanei un'eleganza intima e libera da schemi, capace di definire atmosfere confidenziali e raccolte. Il nome "Vespera" richiama la dimensione della sera, quando il tempo si dilata, la luce si fa più morbida e obliqua e la penombra si adagia sulle superfici per rivelarne una nuova espressività. Realizzata su GlamPlissé, rivestimento tessile tridimensionale in puro lino plissettato sviluppato da Glamora, la collezione si contraddistingue per un'increspatura irregolare che conferisce ritmo verticale alla parete, rendendo la percezione dello spazio più profonda e dinamica. La natura del lino, con le sue variazioni e leggere disomogeneità, emerge contribuendo a definire una texture autentica e mai uniforme, dall'eleganza artigianale. Nel corso della giornata, le pareti rivestite con Vespera Collection amplificano le variazioni della luce, in particolare quando è filtrata o radente, restituendone le vibrazioni più sottili.

I dieci soggetti che la compongono sono segni misurati e rarefatti, ispirati a un immaginario domestico nostalgico e romantico. Le sagome, appena accennate nei loro contorni, non descrivono, né raccontano: evocano situazioni, risvegliano ricordi, instaurando una relazione discreta con la superficie su cui si sviluppano. Accompagnano la materia e ne assecondano il ritmo, contribuendo a costruire un'atmosfera sospesa, densa di risonanze emotive che non richiedono esplicite dichiarazioni formali. La palette cromatica è strutturata su tonalità attenuate e polverose, pensate come base percettiva: non generano contrasti, ma permettono a luce e trama di definire la costruzione dell'insieme. Vespera Collection è pensata per interni residenziali e spazi contract che accolgono luci misurate e lasciano alla materia il tempo di rivelarsi.

EN

Vespera Collection was conceived to introduce an intimate, unrestrained elegance into contemporary interiors, capable of shaping quiet and confiding atmospheres.

The name “Vespera” evokes the dimension of evening, when time seems to expand, light becomes softer and more oblique, and penumbra settles over surfaces, revealing a new expressiveness.

Developed on GlamPlissé – a three-dimensional textile wallcovering in pure pleated linen by Glamora – the collection is distinguished by an irregular crinkling that lends a vertical rhythm to the wall, making the perception of the space deeper and more dynamic. The nature of linen, with its variations and subtle irregularities, emerges to define an authentic, never uniform texture with an artisanal elegance.

Throughout the day, walls dressed in Vespera Collection amplify the nuances of light, particularly when it is filtered or grazing, returning its most subtle vibrations.

The ten subjects that compose the collection are measured, rarefied signs inspired by a nostalgic and romantic domestic imagery. Their silhouettes, barely outlined, neither describe nor narrate: they evoke situations, awaken memories, and establish a discreet relationship with the surface on which they unfold. They accompany the material and follow its rhythm, contributing to an atmosphere suspended between structure and light, rich in emotional resonances that do not require explicit formal statements.

The chromatic palette is built on muted, powdery tones conceived as a perceptual base: they do not generate contrasts, but allow light and texture to define the construction of the whole.

Vespera Collection is designed for residential interiors and contract spaces that welcome measured light and allow the material the time to reveal itself.

Vespera Collection overview

IT

Vespera Collection definisce la superficie come una presenza che si rivela nella luce, non nello sguardo immediato. Una materia che emerge per gradi, attraverso ombre e variazioni che si attivano nel tempo.

Utilizzo

Residenziale, hospitality, workplace, retail.

Condizioni ambientali ideali

Superfici ampie e continue, luce naturale o obliqua, in cui la materia possa rivelarsi lentamente.

Configurazione

Personalizzabile in scala e cromia, in relazione al contesto architettonico, con possibilità di adattare dimensioni, posizionamento e composizione grafica.

EN

Vespera Collection defines the surface as a presence that reveals itself through light, rather than at first glance. A material that emerges gradually, through shadows and variations activated over time.

Applications

Residential, hospitality, workplace, retail.

Ideal environmental conditions

Large, continuous surfaces, with natural or angled light, where the material can reveal itself slowly.

Configuration

Customizable in scale and colour, in relation to the architectural context, with the possibility of adapting dimensions, placement, and graphic composition.

GlamPlissé

IT Rivestimento murale tessile in puro lino, caratterizzato da una plissettatura verticale irregolare che introduce una tridimensionalità discreta. Le naturali variazioni del materiale restituiscono una superficie autentica, mai perfettamente uniforme, capace di interagire con la luce e di modificarne la percezione nel corso della giornata.

Comportamento

Luce, profondità, ritmo.

EN Textile wallcovering in pure linen, distinguished by an irregular vertical pleating that introduces a subtle three-dimensional quality. The natural variations of the material create an authentic surface, never perfectly uniform, able to interact with light and alter its perception throughout the day.

Behaviour

Light, depth, rhythm.
