

Decorative profiles

GLAMORA

TECHNICAL DATA SHEET

Decorative profiles

1. Description

Delicate metallic profiles, available in brushed gold and silver finishes, can enrich surfaces, define specific areas, or divide the wallcovering into separate sections, creating unique and functional geometric visual effects that result in a truly refined outcome.

2. Uses

The decorative profiles can be installed on all Creative Collection and Special Editions wallcoverings. They cannot be installed in damp environments or in temporary contact with water.

3. Technical specifications

COMPOSITION	anodised aluminium
COLOUR	brushed gold and brushed silver
WIDTH	0.39 in 10 mm
THICKNESS	0.019 in 0,5 mm

4. Custom code

HS code: 7604 1090

5. Warnings

- Product for professional use
- Keep out of reach of children and animals
- Dispose of residues in suitable containers for building materials
- Comply with national standards and regulations
- Check that the surface is perfectly clean, dry and level
- Request safety data sheet if necessary

Although the information in the data sheet is the result of our long experience, it is only indicative. Therefore, whoever intends to use it is responsible for assessing whether the product is suitable for application and assumes responsibility for its use.
